

JOB TITLE: Senior Analyst

MANAGER: SVP, Investments & Research

JOB TYPE: Full Time - Permanent

DRI Healthcare (“DRI”), is a pioneer in global pharmaceutical royalty monetization. We accelerate therapeutic innovation by providing capital to inventors, academic institutions and biopharma companies. We focus on medicines that matter – pursuing deals for medicines that have a demonstrable positive impact on the world, aiming to acquire dependable, patent-protected cash flow streams derived from the sales of those important drugs. Since our founding in 1989, DRI has invested multiple billions of dollars into life science organizations, by acquiring or creating royalties on industry gold standards such as Eylea, Keytruda, and Zytiga. DRI Healthcare Trust was listed on the Toronto Stock Exchange in 2021, and in the last 3 years alone we have deployed ~\$1B across 10 deals. The company is highly focused on accelerating our deployment into the dynamic biopharmaceutical industry which is increasingly recognizing the benefits of royalty investments. Job description:

DRI is looking for a highly motivated and results driven individual to join our active and growing Investments & Research team as a Senior Analyst. This person will have responsibilities in sourcing, financial analysis and valuation of potential investment opportunities. This role will be based in Short Hills, New Jersey and will report directly to SVP Head of Sourcing.

Key responsibilities and accountabilities include:

- Preparing preliminary and detailed financial analysis and valuation for investment opportunities including; 1) three statement financial modeling and analysis; 2) NPVs & DCFs
- Creating deal sourcing material (opportunity profiles, target screens, pitch decks)
- Preparing summary presentations and presenting findings to the entire Investment team and Chief Investment officer
- Updating and maintaining internal databases and resources
- Broad reviews of diseases, treatment landscapes and products to identify potential investment opportunities
- Liaising with other deal team members and external counterparties on transactions and strategic initiatives
- Attending industry conferences (may require some travel)

Qualified candidates will have:

- An undergraduate and/or graduate degree in Finance or Accounting with relevant Life Sciences experiences or an undergraduate degree in the Life Sciences with CPA, CFA or MBA
- 2-5 years of relevant Life Sciences valuation/modeling experience

- Extensive knowledge of finance and accounting, including experience in forecasting and valuation of Life Sciences companies / products
- Basic understanding of capital markets
- Power user level knowledge of Microsoft Office, particularly Excel and PowerPoint
- Strong communication skills: Ability to interact effectively and across various groups (i.e. accounting, legal, operations, investment professionals) and to engender trust and confidence of management at all levels
- Strong analytical and problem-solving skills
- Strong intellectual curiosity and interest in the Life Sciences
- Demonstrated ability to translate complex ideas into concise summaries
- Strong organizational skills, with attention to detail and a proactive nature
- Ability to work well in a high pressure, time-sensitive, entrepreneurial environment

To apply, please submit a resume and cover letter to careers@drihealthcare.com, citing the position title in the subject line. We thank all applicants for their response but only those considered for an interview will be contacted.
