Disclaimer

This presentation has been prepared by DRI Healthcare Trust (the "Trust"). The Trust is an unincorporated open-ended trust governed by the laws of the Province of Ontario, Canada and is externally managed by DRI Capital Inc. ("DRI Healthcare"). The Trust completed an initial public offering (the "IPO") on February 11, 2021, in which it acquired an initial portfolio of royalty assets from DRI Healthcare. The predecessor of DRI Healthcare was founded in 1989. Any references to employees or historical figures prior to the IPO refer to those of DRI Healthcare. This document includes information regarding the historical performance of private funds managed by DRI Healthcare, and is not indicative of future results.

Cautionary Note Regarding Forward-Looking Information

This presentation, including responses to questions related thereto, may contain "forward-looking information" within the meaning of, and made pursuant to the "safe harbor" provisions of, Canadian provincial securities laws. Statements that contain forward-looking information are predictive in nature, depend upon or refer to future events or conditions, and include, but are not limited to, statements which reflect management's current opinions, estimates and assumptions regarding the operations, business, investment opportunities, the profitability and availability of royalty investments, results, performance, financial position and compounding of cash flow, expected financial results, priorities, objectives, strategies, prospects, pipeline, capital management and both short- and long-term outlook of the Trust and its subsidiaries, which are based on management's experience and perception of historical trends, current conditions and expected future developments, as well as other factors management believes are appropriate and reasonable in the circumstances. Statements containing forward-looking information are typically identified by words such as "guidance," "target," "project," "assumes," "seek," "objective," "outlook," "commitment," "believe," "expect," "will," and other similar expressions.

Despite careful consideration and review of the forward-looking information, there can be no assurance that the underlying opinions, estimates and assumptions will prove to be correct, and undue reliance should not be placed on such statements. Forward-looking information is subject to known and unknown risks, uncertainties, assumptions, and other factors that may cause the actual results to materially differ from those depicted or implied by such information, including but not limited to the risk factors or assumptions identified in the Trust's most recent Management's Discussion and Analysis ("MD&A"), under "Risk Factors" in the Trust's most recent Annual Information Form, and in the Trust's other filings with Canadian securities regulators available on SEDAR+ at www.sedarplus.ca.

The forward-looking information contained in this presentation represents management's expectations as of the date of this presentation, and are subject to change after such date. Except as may be required by applicable securities laws, the Trust does not undertake any obligation to update or revise any statement containing forward-looking information in this presentation, whether as a result of new information, future events or otherwise.

Non-GAAP Measures and Ratios

This presentation also makes reference to certain non-GAAP financial measures including Total Cash Receipts, Normalized Total Cash Receipts, Total Cash Royalty Receipts and Adjusted EBITDA, and certain non-GAAP ratios including Adjusted EBITDA Margin and Adjusted Cash Earnings per Unit. These measures and ratios are not standardized measures under the International Financial Reporting Standards ("IFRS") and are therefore unlikely to be comparable to similar financial measures disclosed by other issuers. Rather, these measures and ratios are provided as additional information to complement those IFRS measures by providing further understanding of the Trust's financial performance from management's perspective. Accordingly, these measures should not be considered in isolation nor as a substitute for analysis of financial information reported under IFRS. See "Financial Review: Non-GAAP Financial Measures" in the MD&A, which includes a reconciliation of IFRS to non-GAAP measures, such reconciliation being incorporated by reference herein.

All dollar figures in this presentation are stated in US dollars.

Positive effect of compounding of cash flows

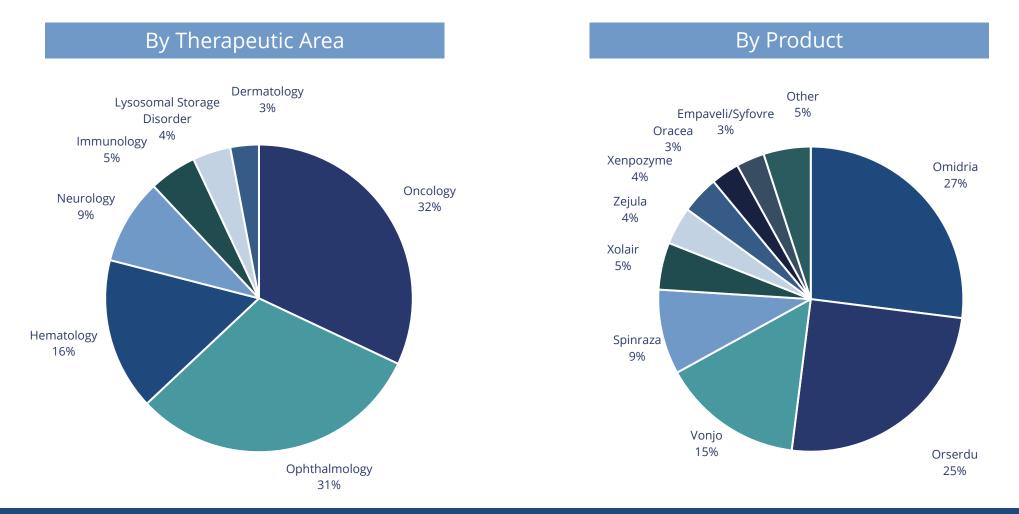

Virtuous cycle of growing returns and reinvestment

1. Total Cash Receipts and Adjusted EBITDA are non-GAAP measures. See "Financial Review: Non-GAAP Financial Measures" in our MD&A.

DRIHEALTHCARE

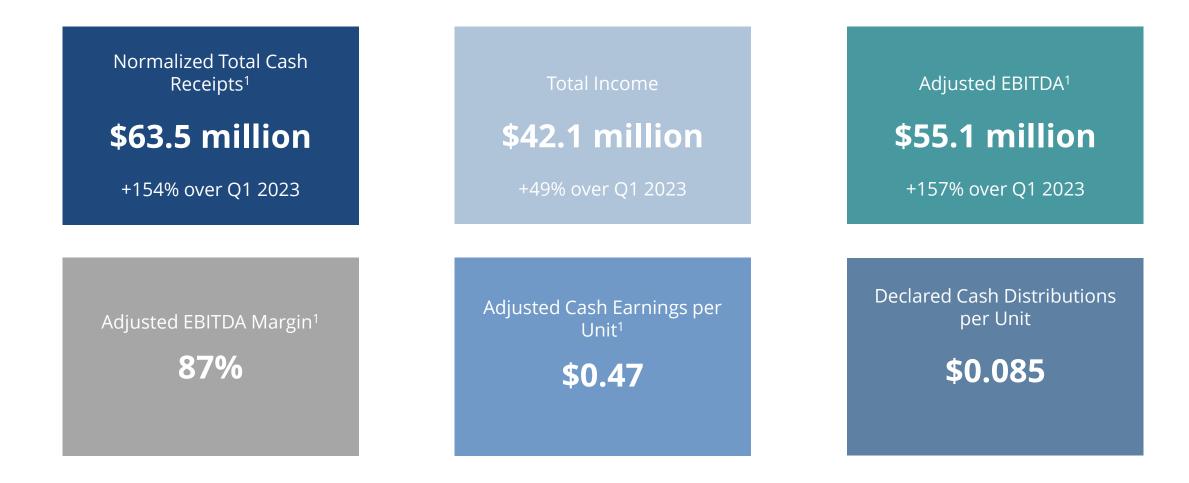

2. The above chart is for illustrative purposes only to depict the effect of reinvesting cash flow over time. The chart was generated using a typical deal cash flow profile based on a historical analysis of DRI Healthcare's internal database of royalty transactions. Key assumptions include original transaction funded with a mix of debt and equity, with interest rate expense, management fees, and other operating costs factored in.

Robust diversified portfolio

No individual product accounts for more than 27% of net book value

Q1 2024 financial highlights

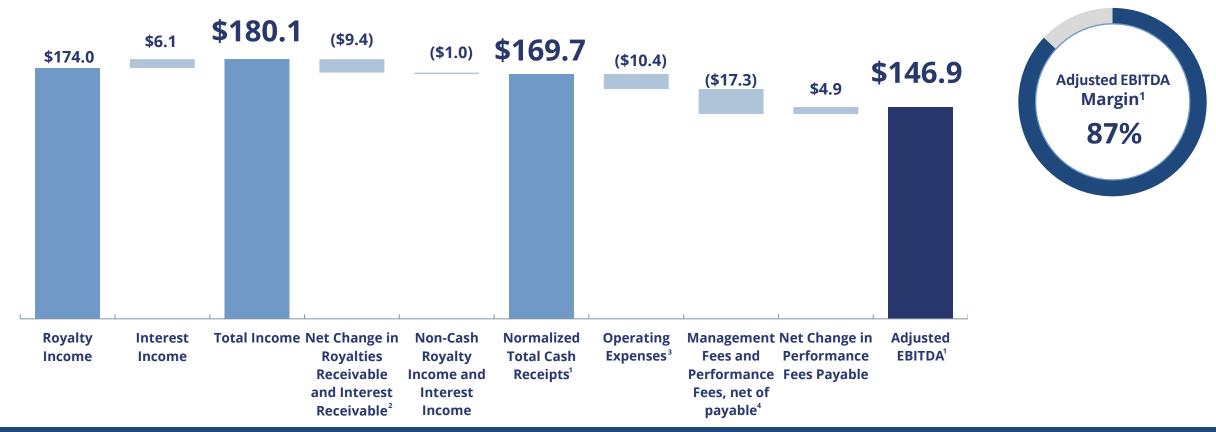

1. Normalized Total Cash Receipts and Adjusted EBITDA are non-GAAP measures. Adjusted EBITDA Margin and Adjusted Cash Earnings per Unit are non-GAAP ratios. See "Financial Review: Non-GAAP Financial Measures" in our MD&A.

Strong cash generation

Adjusted EBITDA for the Last Twelve Months Ended March 31, 2024 (\$M)¹

Cash available to drive portfolio growth and maintain distributions to unitholders

DRIHEALTHCARE

- 1. Adjusted EBITDA and Normalized Total Cash Receipts are non-GAAP financial measures. Adjusted EBITDA Margin and Adjusted Cash Earnings per Unit are non-GAAP ratios. Adjusted EBITDA Margin is calculated as Adjusted EBITDA / Normalized Total Cash Receipts. 2. The Net Change in Royalties Receivable and Interest Receivable are treceivable and interest receivable at the beginning of period, less royalties and interest receivable at the end of period, plus acquired royalties receivable included in the purchase price of the assets, less other interest income and less prepayment premium income on loan receivable.
- 3. Operating expenses are net of \$1.1 million related to board of trustee unit-based compensation and \$0.1 million related to amortization of other current assets
- Operating expenses are net of \$13.7 million and performance fees are net of \$18.6 million non-recurring fees related to the Tzield sale.

5. Adjusted Cash Earnings per Unit is calculated as comprehensive earnings (loss), plus: (i) amortization of royalty assets, (iii) amortization of other current assets, (iii) impairment of royalty assets, (iv) unit-based compensation, (v) board of trustees unit-based compensation, (vi) net unrealized loss on derivative instruments 21 and (vii) management and performance fees on sale of royalty assets; divided by weighted average units outstanding.

Appendix B – Industry Metrics

Industry Metrics

References in this presentation to a securities index or other benchmark are made for informational purposes only and an investment in the Trust is unlike an investment in an index of securities or the aggregate funds constituting such benchmark. The investment characteristics of such index or benchmarks may differ materially from the Trust, and an investment in the Trust is not comparable to an investment in such an index (or benchmark) or in the securities that comprise the index (or benchmark). The risk/return profile in the index or benchmark is also typically materially different from that of the Trust. The Trust does not trade in any of the securities represented in the index, and the Trust may employ leverage, hedging, and other investment strategies that may not be incorporated in the index. In addition, investing in the Trust is generally subject to expenses, management fees, and performance fees or allocations payable by the Trust, none of which are reflected in the index. Further, the index or benchmark is not necessarily used or selected by the Trust as an appropriate benchmark to compare relative to the performance of the Trust, but rather it is included because the Trust believes it serves as a useful point of comparison and is a well known and widely recognized index or benchmark. The Trust is not managed to track the performance of the index referenced herein.

The **S&P 500 Total Return Index** is calculated based on price changes and reinvested dividends of the S&P 500® index, which includes 500 companies in leading industries of the U.S. economy, capturing 75% coverage of U.S. equities. The index is composed almost entirely of common stocks of companies listed on the New York Stock Exchange (including NYSE Arca and NYSE Amex) and NASDAQ stock market. REITs (excluding mortgage REITs) and business development companies are also eligible for inclusion. Additions to the index must have over \$4 billion in market capitalization, a public float of at least 50%, four consecutive quarters of positive as-reported earnings, adequate liquidity and reasonable price. The S&P 500 Index is an unmanaged, market-value weighted index with each stock's weight in the index proportionate to its market value.

The **BTK Price Index** represents common stocks or American depository receipts of selected companies involved in the biotechnology industry, and listed on the NYSE, NASDAQ, NYSE MKT, or another major U.S. exchange.

The **S&P Biotechnology Select Industry**® represents the biotechnology segment of the S&P Total Market Index ("S&P TMI"). The S&P TMI is designed to track the broad U.S. equity market. The biotechnology segment of the S&P TMI comprises the Biotechnology sub-industry. The Index is modified equal weighted.

The **SPX Index** is Standard and Poor's 500, or commonly known as the S&P 500, is an index that includes 500 leading companies and covers approximately 80% of available market capitalization.
